

SOLUTIONS 2 GO 4

PaceBlade was created to provide transport companies with the best smart hardware solutions. These user-friendly smart solutions are specifically designed to help companies become more efficient, effective and increase workplace safety.

FROM A TO Z

Every PaceBlade product has been developed from A to Z with the transport sector in mind, including all the required certifications.

ADDED VALUE

PaceBlade is not just another hardware brand. We partner with our customers and listen to their needs. We can provide custom solutions, adjustments on current devices, and offer extras such as comprehensive Service Contracts and Mobile Device Management.

PARTNERSHIP

Our team is in daily contact with the factory where the devices are being manufactured. We provide the best service & support via our highly qualified project partners in Europe.

PaceBlade offers a free MDM software tool with all of its products. Not only will this save you time and costs, it will strengthen the security between you and your employees.

PaceBlade's MDM features:

- Remote firmware upgrades
- Remote software upgrade / deployment
- Remote configuration management
- Kiosk mode
- The factory standardly adds all devices to the MDM environment
- The factory is able to deliver all devices in a 'ready to use' mode
 - Kiosk Mode
 - Customer's software application
 - Customized boot animation

COMPREHENSIVE SERVICE CONTRACTS

All PaceBlade products come with a 2-year manufacturer's warranty. This by itself is already unique, since most manufacturers only cover a standard 1-year warranty. Optionall, you can expand with a full service contract

The benefits of a full service contract:

- Complete unburdening for the enduser in the repair process
- Eliminates the cost of repairing damage caused by normal wear and tear or accidental breakage to the device by the user
- Protection against unexpected costs
- Multi-year coverage and extended lifespan of the devices
- Multi-year coverage lowers to Total Cost of Ownership (TCO) of the devices

Year 7
